**WHEREAS**, the New Jersey Water Supply Authority’s operations and maintenance staff recently identified the need for a transfer of funds from the renewal and replacement reserve into the 8101 operating fund for a ductile iron pipe since the existing pipe developed a leak due to corrosion from two (2) taps in the pipe that are used for chemical application to the finished water; and

**NOW, THEREFORE, BE IT RESOLVED** by the Southeast Monmouth Municipal Utilities Authority that it hereby authorizes the New Jersey Water Supply Authority to proceed with the transfer of funds from the renewal and replacement reserve into the 8201 operating fund for the removal of the existing pipe of a 65” section of an 18” diameter ductile iron pipe and replace it with a new pipe with two (2) new taps, flanges and a new concrete support with the work to be performed by Mark Woszczak Mechanical Contractors at the Manasquan Water Treatment Plant for an amount not to exceed \$6,400.00 to cover the cost of this expense.
