2016 AUTHORITY BUDGET MESSAGE & ANALYSIS

Southeast Monmouth Municipal Utilities Authority

AUTHORITY BUDGET

FISCAL YEAR: FROM: January 1, 2016 TO: December 31, 2016

Answer all questions below. Attach additional pages and schedules as needed.

1. Complete a brief statement on the 2016 proposed Annual Budget and make comparison to the 2015 adopted budget for each operation. Explain any variances over +/-10% for each line item by operation. Explanations of variances should include a description of the reason for the increase/decrease in the budgeted line item, not just an indication of the amount and percent of the change. Attach any supporting documentation that will help to explain the reason for the increase/decrease in the budgeted line item. For example, if anticipated service charges have increased 15% due to an increase in rates, provide a copy of the resolution authorizing the rate increase.

The CY2016 budget of the Southeast Monmouth Municipal Utilities Authority totals \$4,359,092 and is a \$0 or .00000% change from the prior year's budget of \$4,359,092. The operating expenses charged by the contract operator are decreasing in 2016 by \$1,200 or .05%. These cost decreases are offset by a net increase in debt service of \$1,200 based on the debt service schedules for CY2016. All of these impacts allow for a relatively flat total budget in CY2016.

2. Complete a brief statement on the impact the proposed Annual Budget will have on Anticipated Revenues, especially service charges and on the general purpose/component unit financial statements. Explain significant increases or decreases, if any. An increase or decrease is considered significant if it is over +/-10% from the current year adopted budget.

There will be no change in the total anticipated revenue of \$4,359,092 charged to the five member municipalities of the Southeast Monmouth Municipal Utilities Authority.

3. Describe the state of the local/regional economy and how it may impact the proposed Annual Budget, including the planned Capital Budget/Program.

The proposed operating budget will have no impact on the rates charged to residents of the five member municipalities. Local and regional economic factors will not impact the ability to raise revenue for the annual budget or implement the capital budget program in CY2016.

4. Describe the reasons for utilizing Unrestricted Net Position in the proposed Annual Budget, i.e. rate stabilization, debt service reduction, to balance the budget, etc. If the Authority's budget anticipates a use of Unrestricted Net Position, this question must be answered.

Unrestricted net assets are not used as a revenue source in the CY2016 proposed budget.

5. Identify any sources of funds transferred to the County/Municipality as a budget subsidy or a shared service and explain the reason for the transfer (i.e.: to balance the County/Municipality budget, etc.).

There are none.

6. The proposed budget must not reflect an anticipated deficit from 2016 operations. If there exists an accumulated deficit from prior years' budgets (and funding is included in the proposed budget as a result of a prior deficit) explain the funding plan to eliminate said deficit (N.J.S.A. 40A:5A-12). If the Authority

has a net deficit reported in its most recent audit, it must provide a deficit reduction plan in response to this question.

There is no existing or anticipated accumulated deficit to be funded in the CY2016 budget.

7. Attach a schedule of the Authority's existing rate structure (connection fees, parking fees, service charges, etc.) and a schedule of the proposed rate structure for the upcoming fiscal year. Explain any proposed changes in the rate structure and attach the resolution approving the change in the rate structure, if applicable.

The SMMUA does not utilize a rate structure in allocating contract operation fees or debt service and administration costs to the five member communities, but rather a percentage of the costs are allocated to each community based on the percentage of treated water allocated to each municipality and percentage of linear feet of transmission system within each municipality as follows:

	Percentage Costs Allocated to Treatment Plant	Percentage Costs Allocated to Transmission System
Brielle	14.54%	33.00%
Sea Girt	1.29%	7.00%
Spring Lake	9.05%	22.00%
Spring Lake Heights	12.12%	20.00%
Wall Township	63.00%	18.00%
Total	100.00%	100.00%

8. Attach a copy of the Authority's most recent Annual Operating Data submission to the Municipal Securities Rulemaking Board's Electronic Municipal Marketplace Access (EMMA) under the Authority's Continuing Disclosure Agreements for any debt issuances outstanding. Examples of Annual Operating Data may include sewer and water billings; parking rents and collections; number of customers; number of available parking spaces; etc. See [Local Finance Notice 2014-9](#) for more information.

SMMUA has no continuing disclosure requirements. The only debt outstanding is through the New Jersey Environmental Infrastructure Financing Program.

1. The member communities of the Southeast Monmouth Municipal Utilities Authority participated in the development of the capital plan and approved a 20-year asset management plan in July 2008 which includes all projects identified within the CY2016 Capital Budget/Program. The SMMUA, whose board is made up of a representative of each municipality reaffirmed approval of the capital program at an open public meeting of the board on September 9, 2010. Additions are made to the plan annually and the Board approves these changes as part of the annual adoption of the Authority's budget and Capital Program.
2. Each capital project and subsequent project financing has been developed from a specific engineering study which considers full lifecycle costs, and is consistent with appropriate elements of Master Plans and/or other plans in the jurisdictions served by the authority.
3. Each capital project was identified in an asset management plan contracted by the Authority's water treatment plant operator and performed in 2008. The asset management plan reviewed every asset of the treatment plant and identified improvement or replacement needs over a 20-year cycle through the year 2027. The asset replacement or improvement schedule was determined by way of a priority system measuring parameters which included how close the asset was to the end of its useful life, how crucial the asset was in maintaining water quality standards, how much was currently being expended to repair specific assets is contained within a capital project report, etc. Each asset was identified as a renewal/rehabilitation, an enhancement or a replacement. The projected costs included engineering and considered inflation.
4. The Southeast Monmouth Municipal Utilities Authority pays for the asset management plan referenced above (question 3) through an annual cash contribution to its capital improvement reserve of \$650,000. The cash contribution has been in place since CY13. The Authority does not expect any variation in this cash contribution, therefore there should be no impact on rates fees and service charges.
5. The Treatment Plant is located within the Suburban Planning Areas as defined in the State Development and Redevelopment Plan but just bordering on Park Areas as the Treatment Plant property abuts Allaire State Park.
6. No projects are being undertaken within the boundary of a State Planning Commission-designated Center and/or Endorsed Plan and no projects were included in the Plan Implementation Agenda for that Center/Endorsed Plan.
